Atlantic Eye Symposium

Dr. David Sarraf is Clinical Professor of Ophthalmology at the Stein Eye Institute at UCLA and member of the Retinal Disorders and Ophthalmic Genetics Division. He has published approximately 200 research papers, case reports, reviews and book chapters and is co-author for the second edition of the Retina Atlas. He has also delivered over 200 invited lectures at various national and international forums.

Dr. Sarraf's focus of research interest is the dry and wet forms of age-related macular degeneration (AMD) and specifically the evaluation of pigment epithelial detachment (PED) and retinal pigment epithelial tears. He was nominated to the American Ophthalmological Society because of his research work on the subject of PED and AMD.

Dr. Sarraf is a world leader in the field of advanced retinal imaging and has published extensively in the area of spectral domain OCT analysis of AMD and other novel and established macular disorders. He was one of the first researchers to describe ischemia of the deep retinal capillary plexus using advanced OCT imaging and is an international expert and pioneer on the clinical application of OCT angiography.

Dr. Sarraf is an associate editor for the journal Retinal Cases and Brief Reports and is an editorial board member of the journals Retina and OSLI Retina. He has served on the BCSC section of the AAO and has been awarded Achievement and Secretariat and Senior Achievement awards by the AAO.

Dr. Sarraf is also co-director of the Pacific Retina Club and the International Retinal Imaging Symposium and is co-founder of the International Retinal Imaging Society. He is a member of the ASRS, Retina Society and Gass Club and has served as an executive board member in the Macula Society. He has also served as an advisory board member of the DRCR Network and is a scientific board member of the Macula Foundation Inc and Optovue Inc.
