Mrs Sri Gore is a paediatric Ophthalmic and Oculoplastic consultant at Great Ormond Street Hospital for Children, London. She undertook ophthalmic training in Cambridge and London and then went on to complete four fellowships in paediatric ophthalmology, craniofacial surgery, oculoplastic surgery (including aesthetic surgery) at renowned London hospitals: Great Ormond Street, Moorfields Eye and Chelsea and Westminster Hospitals. She leads the oculoplastic service, which cares for children affected by complex and rare conditions affecting orbits, periocular and lacrimal systems. The specialist services she leads or co-leads include:- vascular anomalies, periocular oncology, neurofibromatosis and craniofacial anomalies.

She has published widely in peer-reviewed journals and has authored several book chapters in oculoplastics, orbital and lacrimal topics.

She is the Digital Director at the St John Ophthalmic Association (SOA), a role which innovates the digital educational content delivered by the SOA as well as the President Elect of the Women in Vision UK Network.
