

AES

Atlantic Eye Symposium

Dr. Devesh Varma is recognized across Canada as a leader in Ophthalmology.

He specializes in glaucoma surgery performing a full spectrum of complex as well as newer minimally invasive procedures. As well, in addition to routine and refractive cataract surgery, he has particular expertise in high risk cataracts, the repair of complications from cataract surgery and reconstruction of the front portion of the eye.

He graduated first in his class in Engineering at Dalhousie University, then completed medical school in Halifax, a residency in Ophthalmology in Saskatoon and a fellowship in Glaucoma and Advanced Anterior Segment Surgery at the University of Toronto under Dr. Ike Ahmed.

In 2010, Dr. Varma joined the Prism Eye Institute - a large multidisciplinary practice with locations in Mississauga and Brampton where he is now a senior partner. He has served over 100,000 patients, performed over 9,000 surgeries and over 20,000 laser procedures. Dr. Varma operates at Trillium Health Partners in Mississauga, Kensington Eye Institute in Toronto and at the Prism/TLC surgery center in Oakville.

Dr. Varma is an Assistant professor of Ophthalmology at the University of Toronto, where he leads undergraduate ophthalmology teaching at the Mississauga campus, teaches residents, fellows and delivers a wide variety of continuing education programs for practicing physicians. He is also the founder and chairman of the Emerging Leaders Program for Ophthalmologists at the University of Toronto's Rotman School of Management.

Dr. Varma actively conducts research and has special interests in angle closure glaucoma and new technologies, having authored over 20 publications and delivered over 100 presentations at national and international conferences.
