Dr. Imran Jivraj is an ophthalmologist who specializes in Oculoplastic Surgery and Neuro-Ophthalmology. He completed a Bachelor of Science degree at McGill University in Physiology followed by medical school at the University of Toronto where he was awarded the Golden Stethoscope Award. He then completed residency training in Ophthalmology at the University of Alberta and served as the chief resident. He then completed an adult and pediatric Neuro-Ophthalmology fellowship at the University of Pennsylvania at the Children's Hospital of Philadelphia and the Scheie Eye Institute. To complete his training, he graduated from an Oculoplastic Surgery fellowship accredited by the American Association of Oculoplastic and Reconstructive Surgeons (ASOPRS) at the University of Toronto and was awarded the Chair's Award. He has since started his practice at the Eye Institute of Alberta and Edmonton Eyelids clinic. He is currently an Assistant Professor at the University of Alberta and teaches medical students and residents, serves on a number of committees within the Department of Ophthalmology, and is a member of the North American Neuro-Ophthalmology Society (NANOS). Above all, he takes pride in offering compassionate care to his patients. His passions outside of medicine include skiing, tennis, swimming, and capturing his lost childhood by attending his daughters' extracurricular activities.
