Valerie Biousse, MD holds the Reunette Harris Chair of Ophthalmology, and is Professor of Ophthalmology and Neurology in the section of neuro-ophthalmology at Emory University School of Medicine in Atlanta, GA, USA. She serves as Vice Chair for Faculty Affairs, Diversity, Equity and Inclusion and Neuro-Ophthalmology Fellowship Director in the Department of Ophthalmology at Emory University.

Dr. Biousse is a fellow of the North American Neuro-Ophthalmology Society and of the French Society of Neurology and an elected member of the American Neurological Association, and multiple other national and international societies, including the American Academies of Ophthalmology and Neurology and the French Society of Ophthalmology. She serves on the editorial board of the *Journal of Neuro-Ophthalmology* as Associate Editor, on the editorial board of *Current Opinion in Neurology* and of the *Journal of Stroke and Cerebrovascular diseases*. She currently also serves on the board of directors and is President of the North American Neuro-Ophthalmology Society. She has more than 500 publications, including scientific articles, book chapters and books, including the primary textbook *Neuro-Ophthalmology* and *Walsh & Hoyt's Clinical Neuro-Ophthalmology*, 6th Edition, 2005, and the didactic textbook *Neuro-Ophthalmology Illustrated* (Thieme, 2009, 2016 and 2019 –awarded “best Neurology book of the year” by the British Medical Association in 2016 and received the “PROSE award” from the American Association of Publishers in 2017). Her current research focuses on four primary areas: (1) idiopathic intracranial hypertension, (2) the use of non-mydriatic fundus photography for the diagnosis of neuro-ophthalmic disease in various clinical settings and deep learning applications, (3) diagnostic errors and referral patterns in neuro-ophthalmology, and (4) ocular manifestations of cerebrovascular diseases.
